ETWINNING NEWS

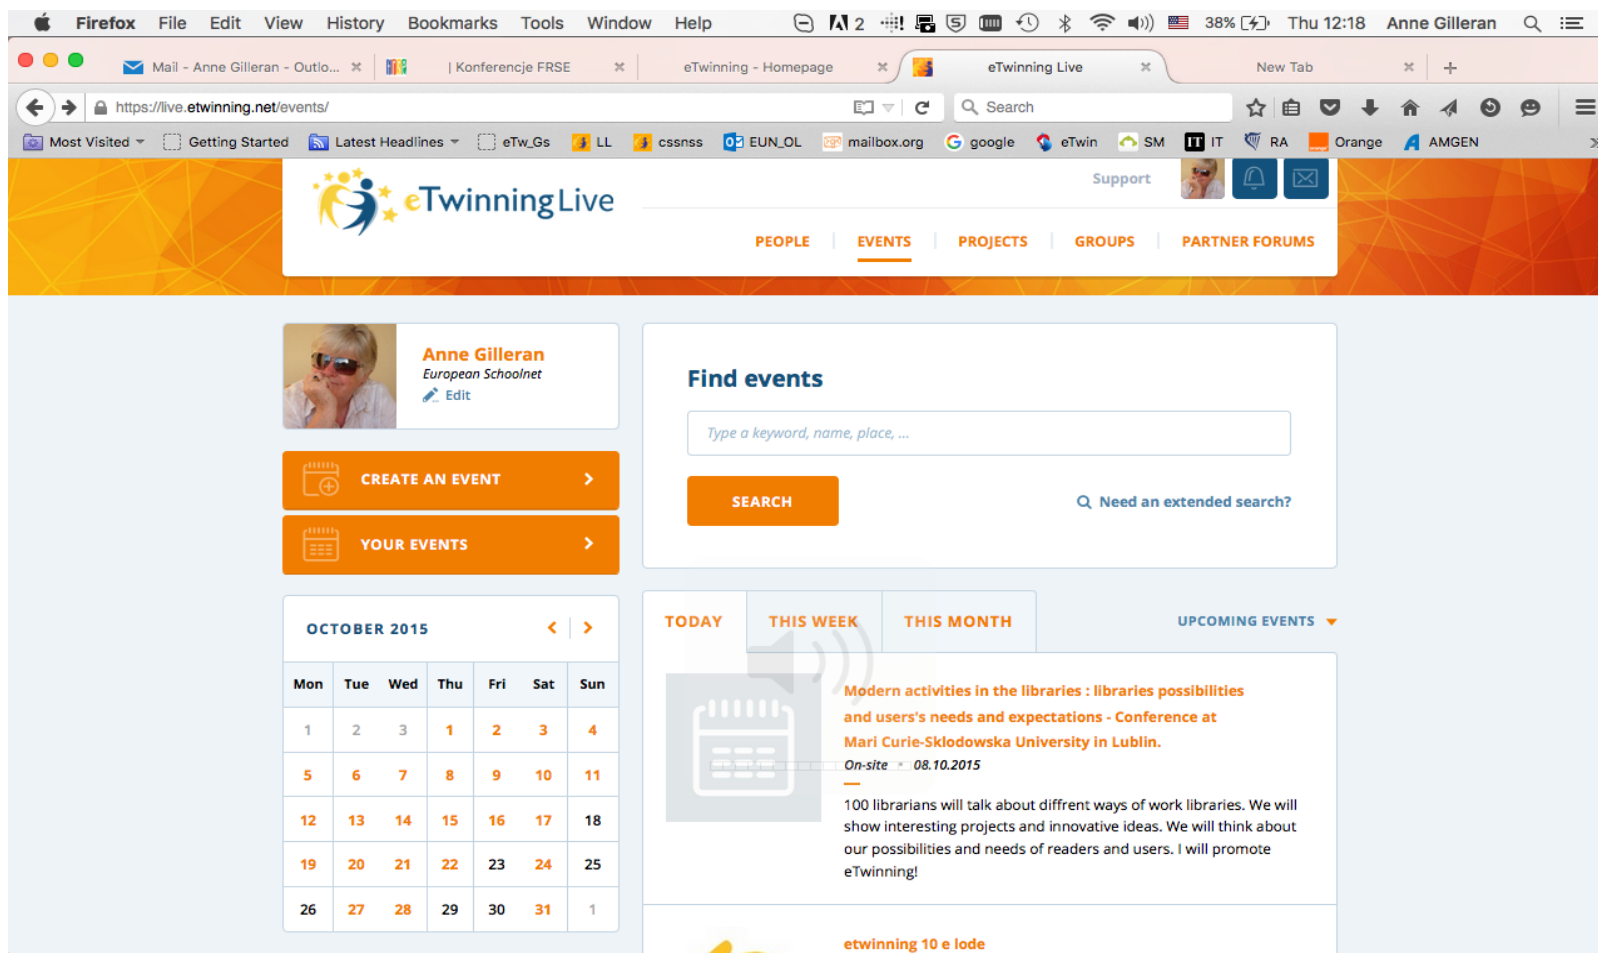

Post by Anne Gilleran (2 minutes ago):

Today I am in Poland for the eTwinning Professional Development Workshop for Science teachers held in Warsaw. The programme looks very interesting and I look forward to meeting all the eTwinners attending

Where to next?

A complex network graph visualization on a black background. It consists of numerous small, multi-colored nodes (red, green, blue, yellow) connected by a dense web of thin, light-colored lines. The nodes are clustered into several distinct groups, with some groups being more densely connected than others. The overall shape of the network is irregular and sprawling.
